Designböden – Qualität und Vielfalt mit Charakter

Authentische Optiken in Holz und Stein, robuste und pflegeleichte Oberflächen – das haben alle Designböden gemeinsam. Zusätzlich punkten die verschiedenen Kollektionen mit ihren ganz eigenen Highlights:

Eine Optik für's ganze Haus? Kein Problem mit der Kollektion 340 Design: Viele der Dekore sind in drei Verlegevarianten und sogar mit dekorgleichen Treppenstufen erhältlich.

Die Kollektion 555 beeindruckt durch eine äußerst robuste Oberfläche zusammen mit exzellentem Feuchtigkeitsschutz, in der XXL-Variante sogar mit extragroßen Planken. In der Mineral Styles finden sich ausschließlich angesagte Steinoptiken, während bei der Wooden Styles natürliche Holzdekore mit synchronegeprägten Strukturen im Mittelpunkt stehen.

Für Liebhaber der Fischgrat-Verlegung bietet sich die Cycle an: 16 unterschiedliche Planken pro Dekor ermöglichen ein harmonisches und natürliches Gesamtbild ohne Wiederholungen.

In Sachen Nachhaltigkeit überzeugt der Designboden Sinero: Er ist aus PET gefertigt und daher nicht nur besonders langlebig und formstabil sondern auch recycelbar.

Welche Kollektion es auch wird: Designböden sind die perfekten Partner für modernes Wohnen.

Designer flooring –

Quality and variety combined with character

Designer floorings are the perfect partner for modern living: The floors in the 340 Designer collection can be easily installed throughout the house – with even stair treads with the same décor. The 555 Collection is impressive with an extremely robust surface together with excellent moisture protection.

The Mineral Styles exclusively feature trendy stone looks, while the Wooden Styles focus on natural wood décors.

The 16 different planks per décor in the Cycle collection are there to create a harmonious and natural overall look. Sinero designer flooring is made of PET and therefore is not only durable but also recyclable.

Sols design –

Qualité et polyvalence avec du caractère

Les sols design constituent le partenaire parfait pour les habitats modernes : les sols de la collection 340 se posent sans problème dans toute la maison, y compris ceux affichant des motifs imitant des marches d'escalier. La collection 555 impressionne par sa surface exceptionnellement robuste, mais aussi par son excellente résistance à l'humidité.

Les variantes « Mineral Styles » affichent un aspect imitation pierre particulièrement original, alors que, pour les versions « Wooden Styles », ce sont des motifs bois naturel qui se mettent en avant.

Pour la collection Cycle, le fait qu'on ait 16 planches différentes par motif permet d'obtenir un rendu harmonieux et naturel. Le sol design Sinero est en PET, et c'est pourquoi il est non seulement durable, mais recyclable.

Pavimenti di design –

Qualità e varietà con carattere

I pavimenti di design sono il partner perfetto per l'abitare moderno: i pavimenti della collezione 340 Design possono essere facilmente posati in tutta la casa e sono disponibili persino con gradini con lo stesso motivo. La collezione 555 sorprende per la sua superficie estremamente robusta insieme all'eccellente protezione dall'umidità.

Tra i “Mineral Styles” si trovano solo effetti pietra trendy, mentre i “Wooden Styles” sono interamente dedicati a decori in legno naturale.

Le 16 diverse assi per decoro della collezione Cycle permettono di ottenere un quadro d'insieme armonioso e naturale. Il pavimento di design Sinero è realizzato in PET e quindi non è solo resistente, ma anche riciclabile.

Muster, Prospekte und Fotos dienen nur der groben Orientierung und sind unverbindlich. Das Alter und die Einwirkung von Sonnenlicht hat Einfluss auf die natürliche Farbveränderung gedruckter Dekore. Farbabweichungen in Druckmedien oder Bildschirmdarstellungen zum Original sind möglich. Dadurch kann das Produkt zum Zeitpunkt der Auslieferung deutliche Unterschiede zur Mustervorlage aufweisen. Maßgeblich für die konkreten Produkteigenschaften ist ausschließlich das aktuelle Technische Datenblatt, das Sie unter www.jordanshop.de/www.inkushop.at finden.

All samples, brochures and photos are therefore only provided in order to give you rough idea and are not binding. Both age and exposure to sunlight do impact on the natural printed finish colour changes. The colours of the original may therefore vary from the way they look in print media or on a screen. At the time of delivery, the product may therefore differ clearly from the material sample provided. Only the technical data sheet, which you can find at www.jordanshop.de/www.inkushop.at, is relevant with regard to specific product properties.

Les échantillons, les brochures et les photos ont uniquement une valeur indicative et sont sans engagement. Le vieillissement et l'exposition au soleil ont une influence sur le changement naturel de couleur des décors imprimés. Des variations de couleur entre les documents imprimés ou les représentations sur écran et l'original sont possibles. C'est pourquoi au moment de la livraison, le produit peut nettement différer de l'échantillon. Seule la fiche technique actuelle que vous trouverez sur www.jordanshop.de/www.inkushop.at détermine les caractéristiques concrètes du produit.

Modelli, dépliant e fotografie servono solo per orientarsi e non sono vincolanti. L'età e la luce del sole tendono a modificare in modo naturale il colore dei decori stampati. Non si escludono differenze cromatiche rispetto all'originale sui supporti di stampa o sulle schermate. Col passare del tempo, il prodotto può cambiare le proprie caratteristiche rispetto al momento della fornitura. L'unico documento vincolante con le caratteristiche del prodotto è la scheda tecnica attuale disponibile alla pagina www.jordanshop.de/www.inkushop.at.
